What sets this book apart from all other Christology texts is that the author teaches readers the process of "doing Christology." Just as theology is the process of interpreting the faith-experience of God, so Christology is the process of making sense of the experience of God through Jesus. This process involves meeting Jesus in the present, personally, and responding to the question: "Who do you say that I am?" It involves gathering the responses of past and present, and searching for the meaning of God's self-gift, ever present in Jesus, for today.

In this fresh, experienced-grounded approach, Fr. Luttenberger invites readers to reflect on the interpretations and responses of Christians in the first centuries of the church's history and to learn from them how to "do Christology." Firmly based on contemporary biblical scholarship, this readable text will appeal to and engage adults who want to deepen their faith knowledge of the living Christ and of the development of the church's expression of that faith. Excellent for university and seminary courses, adult education, Bible study groups, and all persons interested in deepening their understanding of Christ the Lord.

Great Basic Book on Christology

By LexOrandi

Great introduction to the study of Christology. The book is comprehensive and thorough. The author was a long term professor of theology at the Immaculate Conception Seminary in Huntington, NY. For a Christological textbook it is relatively easy to read and understand. Great reference book to have in a theological library.

A boring attack on faith in the guise of "scholarship"

By Ed Kise

This tedious and repetitious tome is overpriced at any cost. The "author" borrows and quotes extensively from "progressive" theologians to promote a "historical-critical " analysis of the life, mission and works of

Christ. When one peels back the rambling and redundant language, we see this this is simply another instance of modernism attempting to diminish faith. As examples; miracles are called such only when "re-interpreted" in the eyes of faith; those who died may have actually only been in a coma; followers of Christ interpreted the Resurrection more from their own belief experiences rather than from evidence; and on and on. Bad enough for persons of faith to have to read such drivel, it becomes excruciating when Luttenberger- having established his offensive themes-goes on page after page to say the same thing over and over in only slightly different words.

I had to read this for a course I'm taking and will look to get it out of my house as soon as the class is done. If you are looking for a work on Christology to read to inform your faith-keep looking. If you must read a "modern" view which will attempt to apply present-day historical analysis-complete with its painful inadequacy and short-sightedness-this text will supply that need-provided you are able to stay awake.
