Excellent, Intelligent and Insightful Book -- Worth The Money.
By HookedOnBooks
Okay I have now finished this book and WOW is all I can say.

The deep research that went into this monumental work was very well done.

The information is priceless.

Now, this is about the most I have spent on a book. One of my Maxillien De LaFayette books I bought on Amazon for \$35.00 I was offered \$2,000 or more. awhile back at a book exchange fair. (No I didn't sell it).

This is such a book.

Some books impart real wisdom and people who are avid readers of serious research books know which books these are.

My five star review cannot do this book justice. D. Cederquist, S. Hayman and qqulter's reviews are far better than mine.

Angel Wars, is not only a book I will want in my library until I take leave of this small rock called Earth - but hopefully my children and grandchildren will want to hang onto, keep and read it.

If we have that long.

Like in the Wizard of Oz, we, like Dorothy, are trapped in the wicked witch's castle and the sands in the hour glass is running down quickly.

Many prophecies in the Bible are coming to pass as we speak.

It's "The Cosmic Chess Match" (also a good book here on Amazon by L.A. Marzulli), a other dimensional battle still being played out and we are the pawns and the prize.

However, I wouldn't be surprised if Angel Wars is one day valued at \$2,000 or more.

Chapter 3 is Mankind's Earliest History, his real history.

Chapter 12 is Ghosts and Aliens - or Demons (the deception will be great) and yes in this review I have repeated this phrase twice knowingly, not being senile, but to re-emphasize a important point. When this disclosure is coming, and it will soon, most of you will be fooled big time.

Chapter 14 - Islam's Fifth Column - For Muslims, I humbly and respectfully suggest, perhaps the angel Gabriel or Jibrail that brought the message to Prophet Mohammed was not a angel from Heaven/God. I realize Muslims do not believe in fallen angels and many people now no longer believe in God or satan.

Keep in mind if you are a Muslim, I could walk up to any of you and say, "Hi, my name is Mary O'Connor".....and well, my name is not Mary O'Connor. This not only goes for Muslims but for anyone dabbling in channeling.

A book based on hate can only come from lucifer. ALL OF OUR PROBLEMS today on our planet stem from hate and greed or corruption of the soul, and yes many people that profess to be Christians also are guilty of greed, hate and corruption of their soul.

Yeshua gave us a new commandment, that of love.

Chapter 16 is The Prelude to Transhumanism: Think super human, Borg, talk of implants that manipulate or change our DNA, corrupting the image.

"Corrupting The Image" also another good book on Amazon by Douglas Hamp. The image referred to is found in Genesis, "God's image".

Chapter 18 is Super Soldiers, Terminators and Demon Machines. Drones are just the beginning.

Chapter 19 is UFOs or Chariots of the False Gods - disclosure is imminent, but it will be a major deception.

Chapter 20 is Noah's Weather - think Haarp, weather wars, technology to wage war upon other nations that do not comply with satan's NWO by weather and or earthquakes.

Chapter 21 is Loss of Free Will - think voice to skull technology and other dimensional entity's possession, do the research, this is not science fiction.

Think about the previous shootings, look closely at the eyes of these "madmen", not simply strung out on drugs, I've seen drugged out individuals, having worked ER in a large inner city hospital. What is currently going on is beyond that level.

Chapter 24 is Techno-Immortality or Eternal Damnation - No RFID Chip for me. I will take death over damnation and folks, satan, hell and God are real. You take the chip and you can kiss your soul good bye.

I went 49 of my 60 years being Agnostic and studied the occult (popular since the 60's). I studied the occult for over 3 decades under names you could Google.

Has anyone else noticed our music, our art, our films are now almost all "dark"? There is a reason, this isn't happenstance.

Simply pull your teenager's ipod and research the lyrics to the music they are listening too. Really open your eyes to the darkness that seems to be spreading.

A woman writes a novel about a magick school and goes from being on welfare to a billionaire. Now her books have millions of fans that want to go to magick school.

In my review of Harry Potter and Marilyn Manson I am met with hostility. Why? Spellbound and the millions of these fans aren't even aware they and their souls have been captured.....they've been tricked into believing this type of entertainment is harmless.

Read Russ Dizdar's book, "The Black Awakening" after reading Harry Potter.

Then there is Lady Gaga with her millions of "Little Monsters". This from a well versed past occultist is blatant dark magick (note the k and do your research).

Reality is often times stranger than fiction. Fiction is meant to distract and entertain and most of our "entertainment" has turned very dark, ugly and satanic.

Some books you buy for both information and as a investment. (I buy for information and entertainment). My copy isn't for sale.

Again, as of today this book is the most expensive one I have paid for (For me a \$50.00 book is expensive) but after reading it, I've decided it's priceless.

Quayle really did his homework on this gem. A lot of questions concerning the Bible Quayle has expertly laid to rest for me anyway.

"The most important trick the devil ever pulled was to convince the World that he doesn't exist!" From one of the characters in the movie, "The Usual Suspects" said during an interrogation.

Also in "The Art of War" by Sun Tzu (you should all have a copy of this ancient book in your library) - to be victorious in battle, to win the war, one must remain invisible, unseen, unknown. Fool the enemy into believing you do not even exist ensures a easy victory.

My favorite quote is from Stephen King's movie, "The Stand" wherein Mother Abigail says to Nick, "You may not believe in God but He believes in you."

For those that simply do not believe, I humbly suggest you read this book and than go to the sections of the Bible Steve quotes from and reconsider your "modern" opinion.

Highly, highly recommend this book. You won't get through this one in a couple days and if you are a long time researcher this book will leave you with remarkable insights.

This book is a keeper.

I did not buy this book at Amazon as I note it is only for sale by sellers, however, the prices marked are good (under \$50.00) and this book will, I most assure you, go up in value - there currently as of today only 12 sellers, 12 copies available. I would grab one, you won't regret it, not if you're into safeguarding your soul.

And watch, with the new pope - disclosure is coming. Instead of lizard scaled angels with dark wings, satan has shape shifted his legion into a more sophisticated "alien space brothers/abductions" but it's still Angel Wars.

A cosmic, multidimensional battle that has been going on for a very long time.

Even if one is just into Science Fiction, grab this - nothing any of these Science Fiction writers is writing can come close to this book.

Angel Wars

By S. Hayman

This is a very in depth book. He shows the relationship between what happened centuries ago with what is happening now using facts. Years of research has gone into this book. As you read it all begins to come together. Many people are so blase when it comes to end times events... this is not Disneyland. Reality can be tough. The spiritual battle for and against mankind is very evident.

Good Book and the only Quayle work you'll need

By Dennis

This is a pretty decent book going over the Giants of the Bible, genetic manipulation, bible prophecy, and transhumanism. While I don't subscribe to every thing Quayle says or writes about, at the very least it's somewhat informative and entertaining. I had a few of his earlier works and eventually sold them and found Angel Wars to be a summary of Quayle's work. The book and page quality is great and it is jammed packed with info that will probably be more insightful if you've never read much of the material before. However there a great deal of quotes and references that were new and reveling. It's a little pricey for a paperback these days, but worth the price if you're interested in the material. Approach it with an open mind and take it with a grain of salt and definitely pursue the information on your own.
