Basketball Junkie: A Memoir By Chris Herren, Bill Reynolds. Is this your extra time? Exactly what will you do after that? Having extra or leisure time is very amazing. You can do everything without force. Well, we suppose you to save you few time to review this e-book Basketball Junkie: A Memoir By Chris Herren, Bill Reynolds This is a god publication to accompany you in this totally free time. You will certainly not be so tough to understand something from this publication Basketball Junkie: A Memoir By Chris Herren, Bill Reynolds More, it will certainly aid you to get better info and experience. Even you are having the terrific tasks, reading this e-book Basketball Junkie: A Memoir By Chris Herren, Bill Reynolds will certainly not include your mind.

From Publishers Weekly

In this blunt, self-deprecating memoir, Herren tells his story as one of the greatest high school athletes to come out of southern New England. Fall River, Mass., has a storied basketball tradition, and Herren's achievements on the court made him a local hero as well as bringing him to the attention of national recruiters and Sports Illustrated. Overwhelmed by expectations, Herren avoided school and abused drugs and alcohol. Although Herren managed to make it to the NBA, his life continued to spin out of control until he OD'd in his car and was found unconscious with a bag of heroin on the seat beside him. Herren offers explanations for his downfall but doesn't make excuses. Neither does he glorify the partying and excess that made his life a blur. What he does achieve is something more valuable: giving a stark portrayal of the surreal existence led by young sports stars in a world of rapacious agents, vicious rivals, oblivious fans, and educational institutions that enable their "student" athletes to get away with almost anything. In the end, this is a sobering, cautionary tale for star-athletes-to-be. (May)

So, the method for you to get this Basketball Junkie: A Memoir By Chris Herren, Bill Reynolds will be so simple, won't you?

BASKETBALL JUNKIE: A MEMOIR BY CHRIS HERREN, BILL REYNOLDS PDF

At basketball-crazy Durfee High School in Fall River, Massachusetts, junior guard Chris Herren carried his family's and the city's dreams on his skinny frame. His grandfather, father, and older brother had created their own sports legends in a declining city; he was the last, best hope for a career beyond the shuttered mills and factories. Herren was heavily recruited by major universities, chosen as a McDonald's All-American, featured in a Sports Illustrated cover story, and at just seventeen years old became the central figure in *Fall River Dreams*, an acclaimed book about the 1994 Durfee team's quest for the state championship. Leaving Fall River for college, Herren starred on Jerry Tarkanian's Fresno State Bulldogs team of talented misfits, which included future NBA players as well as future convicted felons. His gritty, tattooed, hip-hop persona drew the ire of rival fans and more national attention: Rolling Stone profiled him, 60 Minutes interviewed him, and the Denver Nuggets drafted him. When the Boston Celtics acquired his contract, he lived the dream of every Massachusetts kid—but off the court Herren was secretly crumbling, as his alcohol and drug use escalated and his life spiraled out of control. Twenty years later, Chris Herren was married to his high-school sweetheart, the father of three young children, and a heroin junkie. His basketball career was over, consumed by addictions; he had no job, no skills, and was a sadly familiar figure to those in Fall River who remembered him as a boy, now prowling the streets he once ruled, looking for a fix. One day, for a time he cannot remember, he would die. In his own words, Chris Herren tells how he nearly lost everything and everyone he loved, and how he found a way back to life. Powerful, honest, and dramatic, *Basketball Junkie* is a remarkable memoir, harrowing in its descent, and heartening in its return.

This is one honest book

By EJ

For some reason I've been reading quite a few memoirs lately about people who crash and burn due to addiction and then make it back out of the cesspool. There is a potential hazard with serial reading like this, as there is a risk of all of these stories starting to jumble together. However, I needn't have worried in this case, as Chris Herren presents a searing and brutally honest telling of his epic downfall from NBA player to junkie.

This memoir follows Herren from his well-documented time as a high school basketball star to his college and professional playing days in the NBA as well as overseas. This provides a glimpse into what the life of a college and professional athlete can be like underneath all of the perks. Although Herren never lets himself off the hook for his misdeeds, at times he does seem to be an apologist for others such as Jerry Tarkanian, who depending on your point of view is either Sports' Spawn of Satan or a man who believed in second chances.

In this book more than any other similar tome that I've read recently, I got the sense that this was a story that Herren absolutely had to tell, though he is so incredibly upfront about his various misdeeds that I almost suspect he may be punishing himself for his past transgressions. It has a feel of atonement. He makes no excuses; he blames no one other than himself. I admire that. And while I was concerned at first that this might be another case of an athlete staying sober for a month and calling it a recovery, by the end of the story it seems clear to me that after two years in recovery, Herren has all the tools in place to make it.

The overall message of this book is not just "hey kids, don't do drugs". Rather, it's a message directed at parents and one that I agree with fully: Sports should be fun for kids. Overwhelming pressure on kids to perform athletically, whether internal or external, can have disastrous consequences. This book is simply written; this is not a literary masterpiece. But because of that, it's also very accessible.

I recommend this for all audiences. Though I'm admittedly a huge hoops fan, this is a universal story that happens to be about a basketball player.

You Have To Fall To Pick Yourself Up

By Kevin L. Nenstiel

Bill Reynolds' "Fall River Dreams" made Chris Herren a national celebrity when he was just sixteen; but this was just one more pressure on an impressionable youth. Already a teen delinquent in a no-hope town, where only the basketball team bound the community, even the adults pinned their aspirations of Herren's college and NBA careers. But the pressure, frustration, and despair manifested in the form of several abusive, self-destructive addictions.

Seventeen years after Herren reached stardom, this memoir recounts how his demons became the center of his life. He achieved the heights of stardom, playing under Jerry Tarkanian before the NBA draft. His paychecks soared so high that he lost more in one card game than I make per year. But everything paled for Herren beside his hunger for the next fix. Piece by piece, he lost everything that mattered.

Herren's brutal honesty regarding his long string of bad choices recreates his horrific experience. As he repeatedly makes bad bets and pins his hopes on false promises, we feel life's weight mounting as relentlessly as Herren must have. And when he finally hits rock bottom, sees everything he still stands to lose, and chooses to pull his life back together, we feel the same weight lifted off our own shoulders.

Unfortunately, we can see Herren's lack of experience in writing. Reynolds' prologue says that Herren seldom read in high school, and this book suggests he hasn't remedied that much since.

For instance, consider the really short paragraphs.

They accumulate.

The f***ing language gets distracting.

He makes "you" the center of many of his anecdotes, like he's deflecting.

And all his rhetorical questions?

Don't even get me started.

But if readers surmount the occasionally rocky language, Herren's memoir reveals plenty about the demands that turn many promising prodigies into society's great "might-have-beens." He recounts how far he had to fall before he could reclaim the direction in his life. And he shares what he's learned on the journey. I'd recommend this book for every sideline dad, in-yer-face coach, and anyone who hopes their kid will be a star.

Heartbreaking Hoops Story...

By Christopher R. Horton

I had never heard of Chris Herren before this book. Being a major basketball fan of both the NBA and Collegiate Hoops I was intrigued by the book after listening to Herren give an interview on Dan Patrick's radio show.

The book didn't disappoint as Herren and Reynolds are excellent storytellers.

Herren emerged as the local star after replacing his brother as the family standout. He gained national attention from major college programs while becoming a superstar in high school and on AAU squads competing at the national level.

During all of this success he was doing drugs, drinking, failing classes and disrespecting any adult in his life including his parents and his coaches. This leads to the downward spiral he would exist in for the remainder of his basketball career.

I don't want to go into too much detail as the book is worth reading for yourself, but I was amazed at how

much his teams, coaches and schools would put up with just because he was a star athlete. I was also amazed at the fact that he could play and function on the basketball court while being high or drunk.

I couldn't relate to that side of his story but I did relate with his reflections on the basketball side of things. His description of his hatred for losing and how his body would be tormented in any way possible in order to avoid the feeling of losing was something I too went through in high school. In fact, my body is a mess now and I regret living that way. He described how his teammates tolerated him but probably didn't really like playing with him in high school, and I am certain that was probably the feeling that my teammates had towards me.

This book isn't uplifting or encouraging by any means. It is instead a great warning to young athletes or really anybody that thinks drugs or alcohol are a way of life, especially as a high profile athlete or any other position of status.

It was a fascinating insight into what life is like playing in a major college program with people that basically worship you and will do anything to protect you as an asset of their school, team or program.

This will go down as a classic for me. I just hope it doesn't end up being a James Frey in the making and we find out that it is all made up.

It is worth the read!
