By Foobar

The book contains a lot of great information, however the samples that it provides never fully aligns to problems that students are asked to solve. For an intermediate finance student or professional, this would be a good resource, however it seems more advanced than it should for an introductory financial management book.

Arrived Early

By Amazon Customer

This, along with the other books I have purchased for school, was much cheaper than my school's bookstore. It arrived early as well!

Three Stars

By Cobrajawed

I bought this book for college because I had to, not because I wanted to.
