As exactly what we supply you right below, this I've Got Your Number: A Novel By Sophie Kinsella is as one of reviewing publication for you.

From Booklist

**\*Starred Review\*** Kinsella, author of the popular Shopaholic series, offers a charming stand-alone tale about how modern technology changes lives. Poppy Wyatt is beside herself when she loses her engagement ring and her cell phone in quick succession. When she finds a cell phone in a trash can at the hotel where she lost the ring, she seizes it, giving out the number so that people can contact her if they find the ring. It proves to be a company phone that belonged to the now former assistant of businessman Sam Roxton, who is none too pleased that Poppy has claimed it as her own. He reluctantly agrees to let her keep it until the ring is found as long as Poppy is willing to send him any business e-mails that come to the phone. It's not long before Poppy decides to answer several e-mails she thinks Sam is neglecting, while Sam points out a few issues in Poppy's seemingly perfect engagement. Readers will know that Poppy and Sam are destined to be together, but getting there is a delightful and exciting ride. One of Kinsella's best. --Kristine Huntley

“Utterly charming . . . Put Sophie Kinsella’s Number on speed dial.”—USA Today

Poppy Wyatt has never felt luckier. She is about to marry her ideal man, Magnus Tavish, but in one afternoon her “happily ever after” begins to fall apart. Not only has she lost her engagement ring in a hotel fire drill, but in the panic that follows, her phone is stolen. As she paces shakily around the lobby, she spots an abandoned phone in a trash can. Finders keepers! Now she can leave a number for the hotel to contact her when they find her ring. Perfect!

Well, perfect except that the phone’s owner, businessman Sam Roxton, doesn’t agree. He wants his phone back and doesn’t appreciate Poppy reading his messages and wading into his personal life.

What ensues is a hilarious and unpredictable turn of events as Poppy and Sam increasingly upend each other’s lives through emails and text messages. As Poppy juggles wedding preparations, mysterious phone calls, and hiding her left hand from Magnus and his parents, she soon realizes that she is in for the biggest surprise of her life.

“A rollicking page-turner . . . It’s funny. It’s clever. It twists and turns. . . . Sophie Kinsella has yet another winner.”—Fort Worth Star-Telegram

“Fresh, fast-paced, and fiercely funny . . . Kinsella pens her most lovably neurotic protagonist yet. . . . A laugh-out-loud comic caper.”—Publishers Weekly

“Poppy is easily as charming and daffy as shopaholic Rebecca Bloomwood.”—Kirkus Reviews

“A screwball romance for the digital age.”—The Star-Ledger

Not for Kindle

By Maria in Connecticut

This book is definitely a fun read -hence the 5 stars - but that is not what this review is about. The humor in the narrative is found in the footnotes which have to appear at the foot of the page to which the footnote refers or the point is lost. The kindle edition has all of the footnotes at the end of each chapter where their impact is completely lost. In fact, if I have any criticism of kindle it is that you cannot easily leaf forward or backward while reading a book. Unfortunately for me, I do both very often and find that I have to be judicious about the form in which I purchase a book. I clearly made a mistake buying this book in kindle form.

A giggly romance novel for the digerati

By Esther Schindler

There's a bag of Mallomars in your kitchen. Surely nobody will mind if you eat one cookie? Well, maybe two. Okay, another one won't hurt. And somehow... hey, how'd this bag get empty?

Not that this has ever happened to me.

Sophie Kinsella's latest novel makes me think of tasty cookies that are secretly satisfying even if nobody can claim this is "good for you." It's a light, funny, romance novel, nothing more -- but then WHO THE HECK SAYS YOU HAVE TO HAVE MORE? Enough with the serious stuff, already. I sat up until midnight reading this book, and you probably will too.

Our heroine, Poppy, begins with a crisis: She's lost her engagement ring. In the frantic search for the lost emerald ring, someone swipes Poppy's cell phone, so she \*oh no oh no\* cannot text anybody or call anyone. She discovers instead that someone threw a cell phone in the trash... and finders keepers, right? This is the setup for a fun romp that I am tempted to call "zany" (but in a nice way), involving the characters of her in-laws-to-be (who are so scary-smart that she is intimidated), her work-friends, and especially the stranger to whom the phone originally belonged. If you live the cell-phone texting lifestyle (or know someone who does) this will be even more entertaining.

Underneath the welcome silliness are characters who are actively \*nice people\*, too. I won't spoil any of the details for you, just say that Kinsella makes the implausible utterly believable and smile-worthy if not laugh-out-loud funny.

If you're ready for a box of cookies (but with fewer calories) and a welcome escapist story that'll make you smile, grab this one.

Not for kindle

By boydy\_mac

The story line itself is very lame, hard to engage with such a weak premise.

The really annoying thing though is that the whole book is full of foot notes which are very irritating to read in kindle form as you are constantly clicking forward and back. It is not always easy to click on the notes either, which caused me a lot of frustration and made my reading of this book disjointed.

Perhaps it would be easier to read in paperback format.
