One to keep close.

By Nikki

I have read a lot of how to writing books and this one is in the top seven or eight. Well written, with the added bonus of deconstructed examples, she doesn't just tell you how to build suspense...she shows you. After reading, I applied her methods to the outline of a new novel. Not only was it easy to see where the plot might lag, it helped raise questions that needed answers. Well done.

Amazing guide to success

By James H. Dobbins

This book is chock full of great advice on perfecting your writing. Each chapter is focused and succinct. The exercises are valuable and illustrative. I already had my novel written when I read this book. Now I have to revise it into the novel I thought I wrote, but didn't. Cleland's book will take me there.

Five Stars

By Iuliu Ciupe-Vaida

In deed the best book for inexperienced writers, or for the ones that have novel-ideas and can write, but have no clue how to captivate the readers with the appropriate pace of adding drama or certain moments in certain places of the book.

I will for sure read it a secon time, so i cand summarize all the lessons. Thank you, Jane!
