Starred Review. Niemann (*The Pet Dragon*) navigates New York's subterranean system in this playful love letter to public transportation. Readers follow two children and their father, pictured as transit map-style stick figures, who spend a rainy day exploring routes. "Riding the A requires some patience/ if you plan to visit all forty-four stations," they advise. The trains occasionally acquire some light personification ("The 7 is on his way to meet... / his friends at Times Square, 42nd Street!"); after the F and G lines separate at Bergen Street, "The G says, 'Don't cry. I will meet you/ again at Roosevelt Avenue!"). The tone is largely celebratory-- rate hikes and construction don't come up--but Niemann finds pleasure in unexpected places, too ("There are plenty of critters on the tracks of the J/ enjoying the subway all night and all day"). His folksy gouaches are color-coded to match the various subway lines, and his pitchblack backdrops make the colors explode, while alluding to tunnel interiors. An abundance of droll details will delight regular straphangers and stir the imaginations of transportation-obsessed children. Ages 2–5.

PreSchool-Grade 1—This colorful, vivacious, child-centered title began with a post on Niemann's blog, *Abstract City*, in which he describes a day of riding the subway with his two sons just for fun. The artist uses thick gouache paint to render his characters as standard pictograms, akin to those on city signs, with curved edges for hands and feet, and the technique creates a chalky texture that looks like correction fluid. Visual communication lords over the text. Niemann uses many tropes for expression: the youngsters, excited to spend the rainy day on the subway, hi-five. The agony of the adventure coming to an end is punctuated with tears bursting from one son and father dragging the other one, boneless. The spreads of the dedication page, the A train and all its 44 stops, and the wild crisscrossing array of colored lines under Times Square mirroring the famed city lights on the surface, capture the glory of this venerable transportation system. The rhyming text and references to subway lore add chuckles for older readers, but the meter does create an occasional stumble. A sure hit with most youngsters, especially those who are transfixed by trains.—Sara Lissa Paulson, American Sign Language and English Lower School PS 347, New York City

Train lovers everywhere will enjoy this picture-book ride conducted by a New York Times blogger. One day, a bored father and his two children take an adventure on public transportation through Manhattan and its

neighboring boroughs. Along the way, they wave to rats and the Statue of Liberty, ride next to cowboys and bankers, and plan circuitous routes just to prolong the fun. The text is sometimes choppy and awkward (“Riding the A requires some patience if you plan to visit all forty-four stations”). But the gouache art is distinctively urban and bold. Faceless, silhouetted figures resemble those on the pedestrian crossing lights, and the NYC subway's rainbow of iconic lines and signage is creatively woven into the dark, black underground and on the sunny elevated tracks. Other titles, such as Heather Lynn Miller's *Subway Ride* (2008), are more universal. Niemann's enthusiastic offering is an experience that, like many others, can only be had in the Big Apple. For the Little Subway Riders in the Family

By Timothy Haugh

Okay, this book has a very limited market. If you don't live in NYC or aren't familiar with the City's subway system, then I doubt you or your children will see the appeal. On the other hand, if you have a son like mine, who loves to ride the rails and look at the subway map, then this book is fantastic.

The text is simple and the rhymes are a bit weak in spots, but the artwork is satisfyingly impressionistic with plenty of color contrast on a generally black background. Most importantly, the subway line symbols are all there as well as some of the routes, which my son loves to point out to me.

The fact of the matter is, my son wants this book read to him every night. To me, that's high praise indeed.

Riding the Rails

By Catherine W. Hughes

From dawn to dark, two young children and their father ride the subway all around New York City. Brightly colored illustrations, against a black backdrop, bring the subway lines to life. Young children, from two to five, will adore this adventurous picture book.

If you are going to New York...

By M. Heiss

This book takes three guys (a dad and two sons) off the roads and onto the subways of New York City. The people are drawn as if they are universal sign characters -- like they just stepped off the mens' room door. Amazing how expressive these illustrations are. Great graphic representation of the New York Subway system.

Great book.
