Stunning

By Melissa

I can't recommend this book enough for writers wanting to hone existing skills, learn how the industry works, and come to understand how instinct translates into sellable work. I first bought this when I was a teen and devoured it from cover to cover. Now, many years later, I still read it for pleasure sometimes, although I long since learned everything from it I possibly could!

One word of warning; the terminology and advanced studies involved may confuse an absolute beginner. I would say it's not the best place to start if you've never written before, but for intermediates onwards, it is a dream. I've recommended it to many people over the years and they've never been disappointed! Even an old hand at the craft can enjoy it simply as a nod-along piece and a reminiscence of when they didn't know any better!

Great workbook

By moonlightflower

This book was for my step granddaughter who wants to be a writer like me. The instructions are simple and easy enough for a 16 year old to follow. I put together a pamphlet of lessons for her but this will be more helpful. Thanks.
