THE GYROPLANE IN LAW ENFORCEMENT, AFFORDABLE AVIATION SUPPORT BY LEE PATTERSON, BOB PATTERSON PDF

In every case where helicopter support has been introduced into Law Enforcement, results have exceed expectations. Unfortunately, the cost of employing and supporting helicopters has made their use impractical for all but the largest agencies.

Today, the introduction of the modern, high tech, low cost gyroplane is making aviation support available for almost any agency. For the cost of 2-3 police patrol cruisers, Law Enforcement aviation can be added to greatly enhance and expand the capabilities of any department or agency.

This book will give you the background information you need to know about about gyroplanes to include how they work, their advantages, sample costs, and implementation ideas. It also will give you ideas about training pilots (police officers), and how to organize an Aviation Unit within your organization. It includes pictures and descriptions of several of the current market offerings as well as links to their websites.

This book will get you started to begin your research on this new law enforcement tool and it will get you up to speed on how you can consider implementing the gyroplane into your Law Enforcement agency.

The Future Looks to the Past fir Answers

By Joel Martin

I thank both of the author's for their service to our country, and I, as a gyroplane and fixed-wing pilot, absolutely believe in the use of gyroplanes in law enforcement. The book was a great way to introduce the topic, but I completed a leadership white paper (The 21st Century Gyroplane: the Practical Choice for Police Aviation) with much more background and information on why agencies should look to gyroplane technology for a new unit aircraft or to supplement an existing air support unit. I do recommend that everyone should read this book as any information promoting the use of gyroplanes advances the vision.

For the Gyroplane fan.

By Rgd1388

I bought this book because I have always been interested in gyroplanes and auto gyros. It lays out the arguement to use these aircraft in law enforcement and how they would be used in that role.
